## UIFSA – Non Family Court Jurisdictions

### Issue:

When an initial UIFSA filing does not involve paternity, a Circuit Civil (CI) case number is automatically assigned, regardless of whether the jurisdiction is designated as a Family Court jurisdiction.

### Impact:

Cases were being provided the incorrect Case Number Type along with landing in the incorrect queue.

### Resolution:

Added the following configurations to select non-family jurisdiction UIFSA configurations for filings in non-family court jurisdictions.

- UIFSA: Petition for Modification of Foreign Support Order, Non Family Court Jurisdiction
- UIFSA: Register a Support Order, Non Family Court Jurisdiction
- UIFSA: File Petition for Child Support Enforcement, Non Family Court Jurisdiction
